Social Activities

The Weir Nursing Home

We have a busy events and social calendar, which our guests are free to opt in and out of as they choose. Our Activities Manager works tirelessly to understand the interests of our guests, and builds an events programme that is varied as it is exciting.

Regular monthly events include musical entertainments, the mobile library, aromatherapy, movie nights, quizzes, themed talks and presentations.

Then, during the summer months, we hold outdoor concerts, picnics, and music events on the front lawn, and have planned excursions to local places of interest. And in the winter, the music moves inside as we invite talented trios and quartets to fill the house with seasonal cheer.

We also encourage everyone to enjoy hobbies, as best as possible. Whether it's reading, knitting, crochet, crosswords, chess, scrabble, or painting, we believe it is fulfilling and beneficial to keep the mind and hands active.

The Weir Nursing Home

Eat, Drink & Be Merry

Two of the greatest pleasures in life are without a doubt eating and drinking. Food may be fuel, but it's also a great source of enjoyment!

As such, we take particular delight in seeing our guests enjoy their food, so we put a lot of effort into the quality and variety of cuisine on offer. Everything is homemade by our talented catering team, including the decadent puddings and cakes.

Tea, coffee and light refreshments are always available throughout the day. And of course we cater to any specific dietary requirements, and also offer dietetically prepared eating plans for those guests with greater clinical needs.

But our guests can eat and drink whatever and whenever they like, as we do not believe in placing restrictions on someone's eating habits unless it is absolutely, clinically necessary. And many of our guests enjoy a glass of wine, sherry, whisky, or the like... and we say, why not!
