stumpcutters **stumpcutters** **stumpcutters**

Nationwide Coverage

Stump Cutters Ltd is a professional company specialising in the safe and efficient removal / grinding of tree stumps and roots. We undertake jobs of all sizes, both commercial and domestic, throughout the UK.

We have a wide and varied client list including tree surgeons, landscape gardeners, property developers, local councils, and large national construction companies.

Our specialist equipment allows us to successfully work in all types of environments, including areas with limited access.

Estimates can be given over the phone, however some jobs are best quoted on site. An urgent / emergency call-out service is also available.

All our operators are City & Guilds NPTC qualified, CSCS certificated, and CRB checked. You can feel confident that your stump removal and grinding work will be done professionally, thoroughly, and most importantly, safely.

Stump Cutters Ltd is a member of the ISA (International Society of Arboriculture) and certificated by CHAS (The Contractors Health & Safety Assessment Scheme).

We are fully insured, and carry £5 million Public Liability insurance.

To discuss your stump removal needs, and to arrange a FREE quote, please call **Olly Wheeler** at our head office:

A wide range of machinery to get every job done

Carlton SP7015 TRX

The **Carlton SP7015 TRX** is the ultimate 'go anywhere, do everything' machine:

- Cost effective for high volume jobs and large stumps
- Extendable and retractable tracks
- Minimum access = 38 inches (97cm)
- Rubber tracks deliver maximum climbing power and minimal lawn disruption

Alpine Magnum

The **Alpine Magnum** is an extremely versatile hand-held stump grinder:

- No access restrictions at all
- Can be carried through houses and offices, or up long flights of stairs
- Great on very steep banks
- We can remove the stumps that others can't

Predator 28T

The **Predator 28T** is a 30 HP narrow access machine that provides amazing flexibility for those hard to reach jobs:

- Rubber tracks give excellent grip on steep banks, or muddy sites
- Minimal damage to lawns
- 'Ground protection boards' always carried
- Minimum access required just 28 inches (72cm)
